## ABOUT ME

I'm a passionate Frontend Developer and Programmer with a flair for creating visually appealing and highly functional web applications.

Dedicated and results-driven software developer with a strong foundation in technical skills and a proven track record of collaborating effectively with cross-functional teams. I bring to the table a blend of technical expertise and essential soft skills, including:

**Problem Solving:** Strong analytical and critical-thinking skills enable me to identify and resolve issues efficiently, improving the quality and efficiency of software solutions.

**Teamwork:** Proven ability to work collaboratively with diverse teams to achieve project goals. Skilled in fostering a positive team environment, resolving conflicts, and leveraging collective strengths.

## EXPERTISE

### Front-End Web Development

Passionate and creative Front-End Web Developer with a strong foundation in HTML, CSS, and JavaScript. Committed to delivering visually stunning and user-friendly websites. Proficient in responsive design, cross-browser compatibility, and modern web development frameworks.

### Data Structures and Algorithms

Learn to design, implement, and optimize the data structures to efficiently store and manipulate information. Profound understanding of fundamental data structures such as arrays, linked lists, stacks, queues, trees, and graphs.

### Database Management System

Learning in the design, implementation, and optimization of relational database systems. Proficient in utilizing DBMS technologies to efficiently manage and organize vast datasets, ensuring data integrity, security, and accessibility.

## PROJECTS

**ToDo List/ Task Manager**  
Tech Stack Used: HTML, CSS, Javascript

**Portfolio Website**  
Tech Stack Used: HTML, CSS, ReactJS

**Netflix Clone**  
Tech Stack Used: HTML, CSS, Javascript
